Wayside Technology Group, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements
March 31, 2016

(Amounts in tables in thousands, except share and per share amounts)

1. The accompanying unaudited condensed consolidated financial statements of Wayside Technology Group, Inc. and its subsidiaries (collectively, the “Company”), have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by U.S. GAAP for complete audited financial statements.

The preparation of these condensed consolidated financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to product returns, bad debts, inventories, investments, intangible assets, income taxes, stock-based compensation, and contingencies and litigation. The Company bases its estimates on its historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. In the opinion of the Company’s management, all adjustments that are of a normal recurring nature, considered necessary for fair presentation, have been included in the accompanying financial statements. The Company’s actual results may differ from these estimates under different assumptions or conditions. The unaudited condensed consolidated statements of earnings for the interim periods are not necessarily indicative of results for the full year. For further information, refer to the consolidated financial statements and notes thereto included in the Company’s annual report on Form 10-K filed with the Securities Exchange Commission for the year ended December 31, 2015.

2. In May 2014, the Financial Accounting Standards Board (“FASB”) issued guidance for revenue recognition for contracts, superseding the previous revenue recognition requirements, along with most existing industry-specific guidance. The guidance requires an entity to review contracts in five steps: 1) identify the contract, 2) identify performance obligations, 3) determine the transaction price, 4) allocate the transaction price, and 5) recognize revenue. The new standard will result in enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue arising from contracts with customers. In August 2015, the FASB issued Accounting Standards Update ASU 2015-14 (“ASU 2015-14”) ASU No. 2015-14 which deferred the effective date of the new standard by one year. Along with the deferral of the effective date, ASU No. 2015-14 allows early application as of the original effective date. Entities are allowed to transition to the new standard by either recasting prior periods or recognizing the cumulative effect as of the beginning of the period of adoption. The standard and related amendments will be effective for the Company for its annual reporting period beginning January 1, 2018, including interim periods within that reporting period. The Company is currently evaluating the newly issued guidance, including which transition approach will be applied and the estimated impact it will have on our consolidated financial statements

In July 2015, the FASB issued Accounting Standards Update No. 2015-11, “Simplifying the Measurement of Inventory (Topic 330)”, (“ASU 2015-11”). Topic 330, Inventory, currently requires an entity to measure inventory at the lower of cost or market, with market value represented by replacement cost, net realizable value or net realizable value less a normal profit margin. The amendments in ASU 2015-11 require an entity to measure inventory at the lower of cost or net realizable value. ASU 2015-11 is effective for reporting periods beginning after December 15, 2016. We do not expect the adoption of this new accounting pronouncement, will have a significant impact on our financial on our consolidated financial statements.

In November 2015, the FASB issued Accounting Standards Update 2015-17 (“ASU 2015-17”) to simplify the presentation of deferred taxes. This amendment requires that all deferred tax assets and liabilities, along with any related valuation allowances, be classified as noncurrent on the balance sheet. Adoption of this standard is

required for annual periods beginning after December 15, 2016. We do not expect the adoption of ASU 2015-17 will have a significant impact on our consolidated financial statements and related disclosures. In March 2016, the FASB issued Accounting Standards Update (“ASU”) 2016-09, Improvements to Employee Share-Based Payment Accounting (“ASU 2016-09”). ASU 2016-09 simplifies several aspects of the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Company is currently assessing the potential impact of adopting ASU 2016-09 on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (“ASU 2016-02”). ASU 2016-02 supersedes the lease guidance under FASB Accounting Standards Codification (“ASC”) Topic 840, Leases, resulting in the creation of FASB ASC Topic 842, Leases. ASU 2016-02 requires a lessee to recognize in the statement of financial position a liability to make lease payments and a right-of-use asset representing its right to use the underlying asset for the lease term for both finance and operating leases. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. Early adoption is permitted. The Company is currently assessing the potential impact of adopting ASU 2016-02 on its consolidated financial statements.

3. Assets and liabilities of the Company’s foreign subsidiaries have been translated at current exchange rates, and related sales and expenses have been translated at average rates of exchange in effect during the period. The sales from our Canadian operations for the first quarter of 2016 were \$6.6 million as compared to \$5.6 million in the first quarter of 2015.

4. Cumulative translation adjustments have been classified within accumulated other comprehensive income, which is a separate component of stockholders’ equity in accordance with FASB ASC Topic 220, “Comprehensive Income.”

5. Revenue on product (software and hardware) and maintenance agreement sales are recognized once four criteria are met: (1) persuasive evidence of an arrangement exists, (2) the price is fixed and determinable, (3) delivery (software and hardware) or fulfillment (maintenance) has occurred, and (4) there is reasonable assurance of collection of the sales proceeds. Revenues from the sales of hardware products, software products and licenses and maintenance agreements are recognized on a gross basis with the selling price to the customer recorded as sales and the acquisition cost of the product recorded as cost of sales.

Product delivery to customers occur in a variety of ways, including (i) as physical product shipped from the Company’s warehouse, (ii) via drop-shipment by the vendor, or (iii) via electronic delivery for software licenses. The Company leverages drop-ship arrangements with many of its vendors and suppliers to deliver products to customers without having to physically hold the inventory at its warehouse, thereby increasing efficiency and reducing costs. The Company recognizes revenue for drop-ship arrangements on a gross basis. Furthermore, in such drop-ship arrangements, the Company negotiates price with the customer, pays the supplier directly for the product shipped and bears credit risk of collecting payment from its customers. The Company serves as the principal with the customer and, therefore, recognizes the sale and cost of

sale of the product upon receiving notification from the supplier that the product has shipped. Maintenance agreements allow customers to obtain technical support directly from the software publisher and to upgrade, at no additional cost, to the latest technology if new applications are introduced by the software publisher during the period that the maintenance agreement is in effect.

Sales are recorded net of discounts, rebates, and returns. Vendor rebates and price protection are recorded when earned as a reduction to cost of sales or merchandise inventory, as applicable.

Cooperative reimbursements from vendors, which are earned and available, are recorded in the period the related advertising expenditure is incurred. Cooperative reimbursements are recorded as a reduction of cost of sales in accordance with FASB ASC Topic 605-50 "Accounting by a Customer (including reseller) for Certain Consideration Received from a Vendor." Provisions for returns are estimated based on historical sales returns and credit memo analysis which are adjusted to actual on a periodic basis.

Accounts receivable-long-term result from product sales with extended payment terms that are discounted to their present values at the prevailing market rates. In subsequent periods, the accounts receivable are increased to the amounts due and payable by the customers through the accretion of interest income on the unpaid accounts receivable due in future years. The amounts due under these long-term accounts receivable due within one year are reclassified to the current portion of accounts receivable.

6. The carrying amounts of financial instruments, including cash and cash equivalents, accounts receivable and accounts payable approximated fair value at March 31, 2016 and December 31, 2015 because of the relative short maturity of these instruments. The Company's accounts receivable long-term is discounted to their present value at prevailing market rates so the balances approximate fair value.

7. Balance Sheet Detail:

8. On January 4, 2013, the Company entered into a \$10,000,000 revolving credit facility (the "Credit Facility") with Citibank, N.A. ("Citibank") pursuant to a Business Loan Agreement (the "Loan Agreement"), Promissory Note (the "Note"), Commercial Security Agreements (the "Security Agreements") and Commercial Pledge Agreement (the "Pledge Agreement"). The Credit Facility, which will be used for business and working capital purposes, including financing of larger extended payment terms sales transactions. On December 18, 2015, the Company signed an extension to this agreement which extended the maturity date to January 31, 2019 with all other terms remaining the same. The Credit Facility matures on January 31, 2019, at which time the Company must pay this loan in one payment of any outstanding principal plus all accrued unpaid interest. The interest rate for any borrowings under the Credit Facility is subject to change from time to time based on the changes in an independent index which is the LIBOR Rate (the "Index"). If the Index becomes unavailable during the term of this loan, Citibank may designate a substitute index after notifying the Company. Interest on the unpaid principal balance of the Note will be calculated using a rate of 1.500 percentage points over the Index. The Credit Facility is secured by the assets of the Company.

Among other affirmative covenants set forth in the Loan Agreement, the Company must maintain (i) a ratio of Total Liabilities to Tangible Net Worth (each as defined in the Loan Agreement) of not greater than 2.50 to 1.00, to be tested quarterly and (ii) a minimum Debt Service Coverage Ratio (as defined in the Loan Agreement) of 2.00 to 1.00. Additionally, the Loan Agreement contains negative covenants related to, among other items, prohibitions against the creation of certain liens, engaging in any business activities substantially different than those currently engaged in by the Company, and paying dividends on the Company's stock other than (i) dividends payable in its stock and (ii) cash dividends in amounts and frequency consistent with past practice, without first securing the written consent of Citibank. The Company is in compliance with all

covenants at March 31, 2016.

At March 31, 2016, the Company had no borrowings outstanding under the Credit Facility.

9. Basic Earnings Per Share (“EPS”) is calculated by dividing net income attributable to common stockholders by the weighted average number of shares of Common Stock outstanding during the period. Diluted EPS is calculated by dividing net income attributable to common stockholders by the weighted average number of common shares outstanding, adjusted for potentially dilutive securities including unexercised stock option grants and nonvested shares of restricted stock.

10. The Company had two major vendors that accounted for 31.2% and 10.0%, respectively, of total purchases during the three months ended March 31, 2016. The Company had two major vendors that accounted for 25.6% and 10.0%, respectively, of total purchases during the three months ended March 31, 2015. The Company had two major customers that accounted for 21.4% and 20.5%, respectively, of its total net sales during the three months ended March 31, 2016. These same customers accounted for 26.1% and 16.7%, respectively, of total net accounts receivable as of March 31, 2016. The Company had two major customers that accounted for 18.5% and 17.8%, respectively, of its total net sales during the three months ended March 31, 2015.

11. The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and in various state and foreign jurisdictions. The Company has identified its federal consolidated tax return and its state tax return in New Jersey and its Canadian tax return as major tax jurisdictions. As of March 31, 2016 the Company's 2012 through 2015 Federal tax returns remain open for examination, as the Company recently concluded an Internal Revenue Service examination for the 2011 and 2012 tax years. This examination resulted in no change to the previously filed Federal corporate tax returns. The Company's New Jersey and Canadian

tax returns are open for examination for the years 2012 through 2015. The Company's policy is to recognize interest related to unrecognized tax benefits as interest expense and penalties as operating expenses. The Company believes that it has appropriate support for the income tax positions it takes and expects to take on its tax returns, and that its accruals for tax liabilities are adequate for all open years based on an assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter.

The effective tax rate for the three months ended March 31, 2016 was 33.9% compared to 34.5% for the same period last year.

12. The 2012 Stock-Based Compensation Plan (the “2012 Plan”) authorizes the grant of Stock Options, Stock Units, Stock Appreciation Rights, Restricted Stock, Deferred Stock, Stock Bonuses and other equity-based awards. The total number of shares of Common Stock initially available for award under the 2012 Plan was 600,000. As of March 31, 2016, the number of shares of Common stock available for future award grants to employees and directors under the 2012 Plan is 313,963.

The 2006 Stock-Based Compensation Plan (the “2006 Plan”) authorizes the grant of Stock Options, Stock Units, Stock Appreciation Rights, Restricted Stock, Deferred Stock, Stock Bonuses, and other equity-based awards. The total number of shares of Common Stock initially available for award under the 2006 Plan was 800,000. As of March 31, 2016, there are no shares of Common Stock available for future award grants to employees and directors under the 2006 Plan.

During 2010, the Company granted a total of 150,500 shares of Restricted Stock to officers and employees. These shares of Restricted Stock vest over 20 equal quarterly installments. In 2010, a total of 5,875 shares of Restricted Stock were forfeited as a result of employees and officers terminating employment with the Company.

During 2011, the Company granted a total of 15,000 shares of Restricted Stock to employees. These shares of Restricted Stock vest over 20 equal quarterly installments. In 2011, a total of 8,375 shares of Restricted Stock were forfeited as a result of employees terminating employment with the Company.

As of March 31, 2016, there is approximately \$3.9 million of total unrecognized compensation costs related to nonvested share-based compensation arrangements. The unrecognized compensation cost is expected to be recognized over a weighted-average period of 3.6 years.

For the three months ended March 31, 2016 and 2015, the Company recognized share-based compensation cost of \$0.4 million and \$0.3 million, respectively, which is included in the Company's general and administrative expense.

13. FASB ASC Topic 280, "Segment Reporting," requires that public companies report profits and losses and certain other information on their "reportable operating segments" in their annual and interim financial statements. The internal organization used by the public company's Chief Operating Decision Maker (CODM) to assess performance and allocate resources determines the basis for reportable operating segments. The Company's CODM is the Chief Executive Officer.

The Company is organized into two reportable operating segments. The "Lifeboat Distribution" segment distributes technical software to corporate resellers, value added resellers (VARs), consultants and systems integrators worldwide. The "TechXtend" segment is a value-added reseller of software, hardware and services for corporations, government organizations and academic institutions in the United States and Canada.

As permitted by FASB ASC Topic 280, the Company has utilized the aggregation criteria in combining its operations in Canada with the domestic segments as the Canadian operations provide the same products and services to similar clients and are considered together when the Company's CODM decides how to allocate resources.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains, in addition to historical information, forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of risk and uncertainties, including those set forth under the heading "Certain Factors Affecting Results of Operations and Stock Price" and elsewhere in this report and those set forth in "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the Securities and Exchange Commission. The following discussion should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and related notes included in this report and the consolidated financial statements and related notes included in our 2015 Annual Report on Form 10-K.

Overview

The Company is organized into two reportable operating segments. The "Lifeboat Distribution" segment distributes technical software to corporate resellers, value added resellers (VARs), consultants and systems integrators worldwide. The "TechXtend" segment is a value-added reseller of software, hardware and services for corporations, government organizations and academic institutions in the USA and Canada.

We offer an extensive line of products from leading publishers of software and tools for virtualization/cloud computing, security, networking, storage and infrastructure management, application lifecycle management and other technically sophisticated domains as well as computer hardware. We market these products through direct sales, the Internet, our catalogs, direct mail programs, advertisements in trade magazines and e-mail promotions.

The Company's sales, gross profit, and results of operations have fluctuated and are expected to continue to fluctuate on a quarterly basis as a result of a number of factors, including but not limited to: the condition of the software industry in general, shifts in demand for software products, pricing, level of extended payment terms sales transactions, industry shipments of new software products or upgrades, the timing of new merchandise and catalog offerings, fluctuations in response rates, fluctuations in merchandise returns, adverse weather conditions that affect response, distribution or shipping, shifts in the timing of holidays, and changes in the Company's product offerings. The Company's operating expenditures are based on sales forecasts. If sales do not meet expectations in any given quarter, operating results may be materially adversely affected.

Results of Operations

The following table sets forth for the periods indicated certain financial information derived from the Company's unaudited condensed consolidated statements of earnings expressed as a percentage of net sales. This comparison of financial results is not necessarily indicative of future results:

16

	Three months ended March 31,	
	2016	2015
Net sales	100%	100%
Cost of sales	93.6	93.1
Gross profit	6.4	6.9
Selling, general and administrative expenses	4.8	4.9
Income from operations	1.6	2.0
Interest income, net	0.1	0.1
Income before income taxes	1.7	2.1
Provision for income taxes	0.6	0.7
Net income	1.1%	1.4%

Net Sales

Net sales for the first quarter ended March 31, 2016 increased 1% or \$0.6 million to \$93.3 million compared to \$92.7 million for the same period in 2015. Total sales for the first quarter of 2016 for our Lifeboat Distribution segment were \$86.3 million compared to \$82.9 million in the first quarter of 2015, representing an increase of \$3.4 million

or 4%. Total sales for the first quarter of 2016 for our TechXtend segment were \$7.0 million compared to \$9.7 million in the first quarter of 2015, representing a decrease of \$2.8 million or 28%.

The 4% increase in net sales for the Lifeboat Distribution segment was mainly a result of the addition of several key product lines and our ongoing strategy of strengthening of our account penetration. This was offset in part by lower sales to one of our key accounts. The 28% decrease in net sales in the TechXtend segment was primarily due to a decrease of \$2.2 million in extended payment terms sales transactions and lower hardware sales of \$0.4 million as compared to the first quarter ended March 31, 2015.

Gross Profit

Gross Profit for the first quarter ended March 31, 2016 was \$6.0 million, a 6% decrease as compared to \$6.4 million for the first quarter of 2015. Gross profit for our Lifeboat segment in the first quarter of 2016 was approximately \$5.2 million compared to approximately \$5.2 million for the first quarter of 2015, representing a 2% decrease. Gross profit for our TechXtend segment in the first quarter of 2016 was \$0.8 million compared to \$1.1 million for the first quarter of 2015, representing a 29% decrease. This decrease for the TechXtend segment was primarily due to the decreased sales volume in the current year.

Gross profit margin (gross profit as a percentage of net sales) for the first quarter ended March 31, 2016 was 6.4% compared to 6.9% for the first quarter of 2015. Gross profit margin for our Lifeboat Distribution segment for the first quarter of 2016 was 6.0% compared to 6.3% for the first quarter of 2015. The decrease in gross profit margin for the Lifeboat Distribution segment was primarily caused by a program change by one of our main vendors, causing gross margins to decline by 2.7% for that line. Gross profit margin for our TechXtend segment for the first quarter of 2016 was essentially flat at 11.5% compared to 11.5% for the first quarter of 2015.

Vendor rebates and discounts for the quarter ended March 31, 2016 amounted to \$0.5 million compared to \$0.6 million for the first quarter of 2015. Vendor rebates are dependent on reaching certain targets set by our vendors. Vendors have been periodically substantially increasing their target revenues for rebate eligibility. The Company monitors gross profits and gross profit margins carefully. Price competition in our market continued in 2016. We anticipate that margins, as well as discounts and rebates, for the remainder of the year

17

will continue to be affected by this current trend. To the extent that the Company finances larger transactions with extended payment terms, as anticipated, gross margins also will be negatively impacted.

Selling, General and Administrative Expenses

Total selling, general, and administrative (“SG&A”) expenses for the first quarter of 2016 was essentially flat at \$4.5 million compared to the first quarter of 2015. As a percentage of net sales, SG&A expenses for first quarter of 2016 were 4.8% compared to 4.9% for the first quarter of 2015.

Direct selling costs (a component of SG&A) for the first quarter of 2016 were \$2.3 million compared to \$2.4 million for the first quarter of 2015. Total direct selling costs for our Lifeboat Distribution segment for the first quarter of 2016 was essentially flat at \$1.8 million compared to the same period in 2015. Total direct selling costs for our TechXtend segment for the first quarter of 2016 were \$0.5 million compared to \$0.6 million for the same period in 2015.

The Company expects that its SG&A expenses, as a percentage of net sales, may vary by quarter depending on changes in sales volume, and levels of continuing investments in employee headcount and marketing. We plan to continue our investments in our Lifeboat Distribution segment and to monitor our SG&A expenses closely.

Income Taxes

For the three months ended March 31, 2016, the Company recorded a provision for income taxes of \$0.5 million or 33.9% of income, compared to \$0.7 million or 34.5% of income for the same period in 2015.

Liquidity and Capital Resources

During the first three months of 2016 our cash and cash equivalents increased by \$0.5 million to \$24.3 million at March 31, 2016, from \$23.8 million at December 31, 2015. During the first three months of 2016, net cash provided by operating activities amounted to \$2.3 million, net cash used in investing activities amounted to less than \$0.1 million and net cash used in financing activities amounted to \$1.7 million.

Net cash provided by operating activities in the first the three months of 2016 was \$2.3 million and primarily resulted from \$1.5 million in net income excluding non-cash charges, a \$4.3 million decrease in accounts receivable offset in part by a decrease of \$2.9 million in accounts payable and accrued expenses an increase of \$0.4 million in inventory and an increase of \$0.1 million in prepaid and other current assets. The decreases in accounts receivable, accounts payable and accrued expenses were mainly due to lower sales volume, in the first quarter of 2016 compared to the fourth quarter of 2015.

Net cash used in investing activities in the first three months of 2016 amounted to less than \$0.1 million. This was the result of capital expenditures of less than \$0.1 million.

Net cash used in financing activities in the first three months of 2016 amounted to \$1.7 million. This consisted primarily of dividends paid of \$0.8 million and treasury stock repurchases of \$0.9 million.

The Company’s current and anticipated use of its cash and cash equivalents is, and will continue to be, to fund working capital, operational expenditures, the Common Stock repurchase program and dividends if declared by the board of directors.

On January 4, 2013, the Company entered into a \$10,000,000 revolving credit facility (the “Credit Facility”) with Citibank, N.A. (“Citibank”) pursuant to a Business Loan Agreement, Promissory Note (the “Note”), Commercial Security Agreements and Commercial Pledge Agreement (the “Pledge Agreement”). The Credit Facility, which will be used for business and working capital purposes, including financing of larger extended payment terms sales transactions which may become a more significant portion of the Company’s net sales. On December 18, 2015, the Company signed an extension to this agreement which extended the maturity date to January 31, 2019 with all other terms remaining the same (See Note 8 in the Notes to our Condensed Consolidated Financial Statements). As of March 31, 2016, there were no borrowings outstanding on the Credit Facility.

We believe that the funds held in cash and cash equivalents and our unused borrowings on our credit facility will be sufficient to fund our working capital and cash requirements for at least the next 12 months.

18

Contractual Obligations as of March 31, 2016 are summarized as follows: (000’s)

Payment due by Period	Total	Less than 1 year	1-3 years	4-5 years	After 5 years
-----------------------	-------	------------------	-----------	-----------	---------------

Long-term debt obligations						
Capital Lease obligations						
Operating Lease obligations (1)	\$	4,826	\$	484	\$	1,265
Purchase Obligations						
Other Long term Obligations reflected on the Company's Balance Sheet under GAAP						
Total Contractual Obligations	\$	<u>4,826</u>	\$	<u>484</u>	\$	<u>1,265</u>
						\$
						<u>2,266</u>

(1) Operating leases relate primarily to the leases of the space used for our operations in Shrewsbury and Eatontown, New Jersey, Mesa Arizona Mississauga, Canada and Amsterdam, Netherlands. The commitments for operating leases include the minimum rent payments.

As of March 31, 2016, the Company has no borrowings outstanding under lines of credit and no commitments relating to standby letters of credit, and has no standby repurchase obligations or other commercial commitments (see Note 8 in the Notes to our Consolidated Financial Statements).

Foreign Exchange

The Company's Canadian business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates or other factors. We are subject to fluctuations primarily in the Canadian Dollar-to-U.S. Dollar exchange rate.

Off-Balance Sheet Arrangements

As of March 31, 2016, we did not have any off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

Critical Accounting Policies and Estimates

Management's discussion and analysis of the Company's financial condition and results of operations are based upon the Company's consolidated financial statements that have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. The Company recognizes revenue from the sale of software and hardware for microcomputers, servers and networks upon shipment or upon electronic delivery of the product. The Company expenses the advertising costs associated with producing its catalogs. The costs of these catalogs are expensed in the same month the catalogs are mailed.

On an on-going basis, the Company evaluates its estimates, including those related to product returns, bad debts, inventories, investments, intangible assets, income taxes, stock-based compensation, contingencies and litigation.

19

The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The Company believes the following critical accounting policies, used in the preparation of its unaudited condensed consolidated financial statements, affect its more significant judgments and estimates.

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its customers to make required payments. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

The Company writes down its inventory for estimated obsolescence or unmarketable inventory equal to the difference between the cost of inventory and the estimated market value based upon assumptions about future demand and market conditions. If actual market conditions are less favorable than those projected by management, additional inventory write-offs may be required.

The Company has considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for the valuation allowance related to deferred tax assets. In the event the Company was to determine that it would not be able to realize all or part of its net deferred tax assets in the future, an adjustment to the deferred tax assets would be charged to income in the period such determination was made.

Under the fair value recognition provision stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as an expense as it is amortized on a straight-line basis over the requisite service period, which is the vesting period. We make certain assumptions in order to value and expense our various share-based compensation awards. In connection with valuing stock options, we use the Black-Scholes model, which requires us to consider certain facts and to estimate certain subjective assumptions. The key facts and assumptions we consider are: (i) the expected volatility of our Common Stock; (ii) the expected term of the award; and (iii) the expected forfeiture rate. In connection with our restricted stock program we make assumptions principally related to the forfeiture rate. We review our valuation assumptions periodically and, as a result, we may change our valuation assumptions used to value stock based awards granted in future periods. Such changes may lead to a significant change in the expense we recognize in connection with share-based payments.

Certain Factors Affecting Results of Operations and Stock Price

This report includes "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Statements in this report regarding future events or conditions, including but not limited to statements regarding industry prospects and the Company's expected financial position, results of operations, business and financing plans, are forward-looking statements. These statements can be identified by forward-looking words such as "may," "will," "expect," "intend," "anticipate," "believe," "estimate," and "continue" or similar words.

Although the Company believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to have been correct. Substantial risks and uncertainties unknown at this time could cause actual results to differ materially from those indicated by such forward-looking statements, including, but not limited to, the continued acceptance of the Company's distribution channel by vendors and customers, the timely availability and acceptance of new products, product mix, market conditions, competitive pricing pressures, contribution of key vendor relationships and support programs, including vendor rebates and discounts, as well as factors that affect the software industry in general.

20

and other factors generally. We strongly urge current and prospective investors to carefully consider the cautionary statements and risk factors contained in this report and our annual report on Form 10-K for the year ended December 31, 2015.

The Company operates in a rapidly changing business, and new risk factors emerge from time to time. Management cannot predict every risk factor, nor can it assess the impact, if any, of all such risk factors on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements.

Accordingly, forward-looking statements should not be relied upon as a prediction of actual results and readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of their dates. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

The statements concerning future sales, future gross profit margin and future selling and administrative expenses are forward looking statements involving certain risks and uncertainties such as availability of products, product mix, pricing pressures, market conditions and other factors, which could result in a fluctuation of sales below recent experience.

Stock Volatility. The technology sector of the United States stock markets has experienced substantial volatility in recent periods. Numerous conditions which impact the technology sector or the stock market in general or the Company in particular, whether or not such events relate to or reflect upon the Company's operating performance, could adversely affect the market price of the Company's Common Stock. Furthermore, fluctuations in the Company's operating results, announcements regarding litigation, the loss of a significant vendor, increased competition, reduced vendor incentives and trade credit, higher postage and operating expenses, and other developments, could have a significant impact on the market price of the Company's Common Stock.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

In addition to its activities in the United States, 7.0% of the Company sales during the three months ended March 31, 2016 were generated in Canada. We are subject to general risks attendant to the conduct of business in Canada, including economic uncertainties and foreign government regulations. In addition, the Company's Canadian business is subject to changes in demand or pricing resulting from fluctuations in currency exchange rates or other factors. See "Item 2 — Management's Discussion and Analysis of Financial Condition and Results of Operations - Results of Operations - Foreign Currency Transactions Gain (Loss)."

The Company's cash balance is invested in short-term savings accounts with our primary banks, Citibank, and JPMorgan Chase Bank. As such, we believe that the risk of significant changes in the value of our cash invested is minimal.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. As required by Rule 13a-15(b) under the Exchange Act, our management carried out an evaluation of the effectiveness of the design and operation of the Company's "disclosure controls and procedures", as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of various members of our management, including our Company's President, Chairman of the Board and Chief Executive Officer (principal executive officer) and Vice President and Chief Accounting Officer (principal financial officer). Based upon that evaluation, the Company's Chief Executive Officer and Chief Accounting Officer concluded that the Company's disclosure controls and

21

procedures were effective, as of the end of the period covered by this report, to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There has been no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) under the Exchange Act, that occurred during the quarter ended March 31, 2016, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

(1) Includes 10,089 shares surrendered to the Company by employees to satisfy individual tax withholding obligations upon vesting of previously issued shares of Restricted Stock. These shares are not included in the Common Stock repurchase program referred to in footnote (4) below.

(2) Average price paid per share reflects the closing price the Company's Common Stock on the business date the shares were surrendered by the employee stockholder to satisfy individual tax withholding obligations upon vesting of Restricted Stock or the price of the Common Stock paid on the open market purchase, as applicable.

(3) Average price paid per share reflects the price of the Company's Common Stock purchased on the open market.

(4) On December 3, 2014, the Board of Directors authorized the purchase of 500,000 shares of our Common Stock. On July 31, 2008, the Company approved the increase of its Common Stock repurchase program by an additional 500,000 shares. The Company expects to purchase shares of its Common Stock from time to time in the market or otherwise subject to market conditions. The Common Stock repurchase program does not have an expiration date.

(5) On February 2, 2016, the Board of Directors approved, and on March 4, 2016, the Company entered into a written purchase plan intended to comply with the requirements of Rule 10b5-1 under the Exchange Act, as amended (the "Plan"). Purchases involving shares of the Company's Common Stock under the Plan commenced March 7, 2016, and the Plan is intended to be in effect until August 31, 2016. Pursuant to the Plan, the Company's broker shall effect purchases of up to an aggregate of 400,000 shares of Common Stock.

CERTIFICATION

I, Kevin T. Scull, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Wayside Technology Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15(d)-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based upon such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
